

# EZ-Gro™ Garden

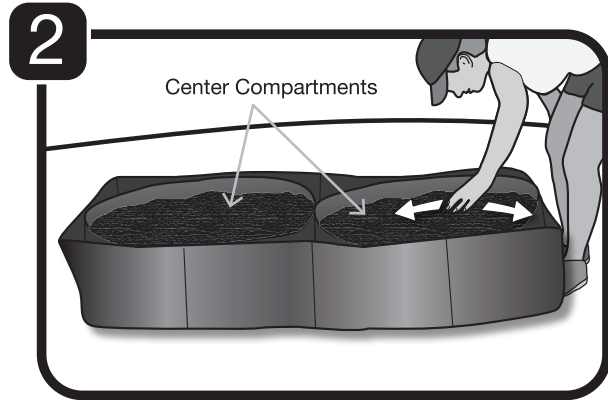

instant raised garden bed

Let's Get Started!

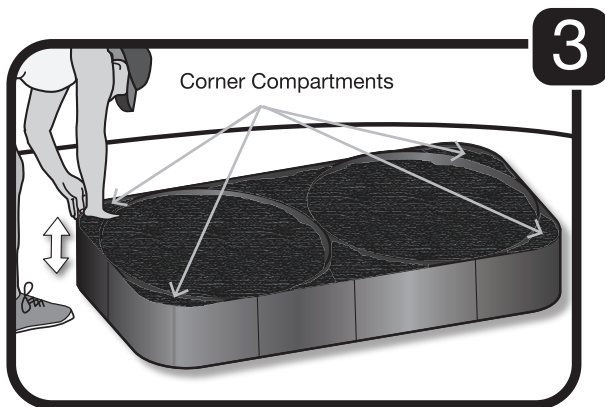

Choose a level surface. Place EZ-Gro™ Garden on level surface and spread out flat.

 **TIP:** Pick a spot with at least 6 hours of morning sun.

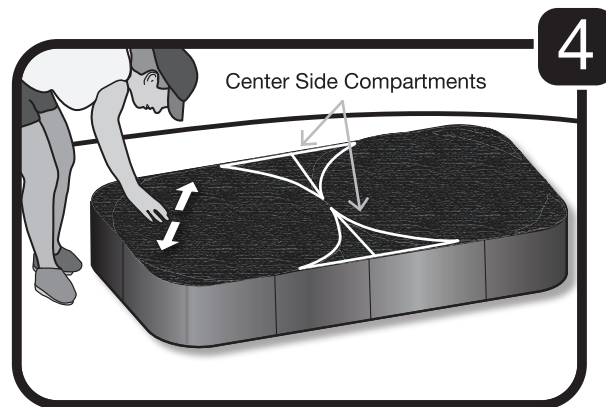

First fill each of the two center compartments to top of side wall. Smooth and spread the soil as you fill to form round shape

 **TIP:** No need to compact soil.

Next, lightly fill four corner pockets. Lift up and down on outside corner of side walls to help settle soil.

 **TIP:** Too much packing in corner pockets may cause bulges on sides.

Finish by filling four center side pockets to top of side wall. Smooth and level soil gently by hand to settle soil.

 **TIP:** Fill soil to top edge for a nice look. Use your hands to pat the outside of sidewalls to help settle soil and form smooth sides and corners.
