

EZ-Gro™ Garden

instant raised garden bed

Let's Get Started!

Choose a level surface. Place EZ-Gro™ Garden on level surface and spread out flat.

 **TIP:** Pick a spot with at least 6 hours of morning sun.

Center Compartment

First, fill center compartment to top of side wall. Smooth and spread the soil as you fill to form round shape

 **TIP:** No need to compact soil.

Corner Compartments

Next, lightly fill four corner compartments. Lift up and down on outside corner of side walls to help settle soil.

 **TIP:** Too much packing in corner pockets may cause bulges on sides.

Smooth and level the soil gently by hand to settle soil in place.

 **TIP:** Fill soil to top edge for a nice look. Use your hands to pat the outside of sidewalls to help settle soil and form smooth sides and corners.
